

FRANCIS HYDRO TURBINES

Francis vodne turbine / Projektovanje i proizvodnja

TYPE
Francis

Siapro Design and Manufacture Francis Hydro Turbines and Electrical Hydro Control Systems.
Siapro projektuje i proizvodi Francis turbine za male hidroelektrarne i elektro kontrolne sisteme za proizvodnju struje.

- Francis Runners Manufacturing / Proizvodnja Francis trkačev:
- A wide range of configurations / Širok raspon konfiguracija
 - 3D Modeling, 3D 5 Axis machining / 3D modelovanje, obrada 3D 5 aksialne mašine
 - Materials: Inox, Bronze, Other / Materijali: Inox , Bronza I drugi
 - Casted – Loast Foam Process / Ljevanje – Loast Foam postupak
 - Machines: Welded / Kučišta: zavarena
 - Heat Threated / Temperaturno obrađeno
 - Reliable components / Pouzdane komponente

Shaft drivers can be installed vertically or horizontally. Francis turbines we used for medium-sized drops of 10 to 400 meters. The efficiency of Francis turbine is up to 93%. More than 20 years of Siapro experience means the accumulation of experience and knowledge that guarantee internationally competitive solutions.

Uz pomoć promene položaja lopatica možemo regulisati snagu turbine. Vratilo rotora može biti vodoravna ili horizontalna. Francis turbine korsitimo za srednje velike padove od 10 do 400 metara. Stepenn iskorištenja Francisove turbine je do 93%. Više od 20 godina iskustva Siapro znači prikupljanje iskustava i nadogradnju znanja koji garantuju međunarodno konkurentna rješenja.

3D Designing / 3D Projektovanje

Other Turbines & Equipment / Druga oprema:
