

KAPLAN HYDRO TURBINES

Kaplan vodne turbine / Projektovanje i proizvodnja

TYPE

Kaplan

Siapro Design and Manufacture Kaplan Hydro Turbines and Electrical Hydro Control Systems.
Siapro projektuje i proizvodi Kaplan vodne turbine za male hidroelektrarne i elektro kontrolne sisteme za proizvodnju struje.

Kaplan Runners Manufacturing / Proizvodnja Kaplan trkačev:

- A wide range of configurations / Širok raspon konfiguracija
- 3D Modeling, 3D 5 Axis machining / 3D modelovanje, obrada 3D 5 aksialne mašine
- Materials: Inox, Other / Materijali: Inox i drugi
- Machines: Welded – Turned / Kućišta: sarena – tokarena
- Heat Treated / Temperaturno obrađeno
- Reliable components / Pouzdane komponente

Kaplan water turbine is axial overpressure water turbine, which has a radial inflow, outflow, however axial. It is used for high flow rates and low flows. For a wide range of flow rate is achieved a very good yields, even more than 92%. More than 20 years of our experience means the accumulation of experience and knowledge that guarantee internationally competitive solutions.

Kaplan vodna turbina je aksijalna vodna turbina, koja ima radijalni uljev, i aksijalni odljev. Koristi se za visoke protoke i niske padove. Za široki raspon protoka postiže vrlo dobra iskorištenja, i više od 92%. Više od 20 godina iskustva Siapro znači prikupljanje iskustava i nadogradnju znanja koji garantujui međunarodno konkurentna rješenja.

3D Designing & Specifications / 3D Projektovanje
